

MMS Holdings Inc. is a leading pharmaceutical service organization that focuses on regulatory submission support for the pharmaceutical, biotech and medical device industries. Our strong industry experience and scientific approach to drug development makes us a valuable partner in creating compelling submissions that meet rigorous regulatory standards while effectively leveraging the available data to propose robust labeling.

### **Our Values**

As an organization, we subscribe to the Kaizen philosophy of continuous improvement based on five key principles: teamwork, personal discipline, process focus, problem-solving and individual colleague involvement. High quality and a meticulous commitment to every project we deliver are reflective of these core values and principles.

### **Our Mission**

To generate the highest quality documents, datasets and services for our clients' success.

### **Adaptive Parallel Processing™**

For each project we undertake, the internal MMS team is configured using Adaptive Parallel Processing™, a unique trademarked system that allows on-time delivery of time-sensitive components while enhancing flexibility and allowing for process optimization across teams. APP™ also allows for creative solutions to critical path deliverables and enables clients to overcome routine rate-limiting delays in submission of time-sensitive projects.
